PROTECTIVE SHIELD

PROTECTIVE SHIELD

Waterproof, dustproof, transparent protective shield

The article is customizable, in the color and in the print of the face shield with logos and subjects of your choice, depending on the area in which it will be used.

The requested customization will be assessed to verify its feasibility.

The face shield is fully customizable.

Each component of the kit can be washed and sanitized.

The face shield protects the face and eyes from flying particles.

The product offers a clear view given the use of the front part in polycarbonate.

The product is qualified for recycling after a specific treatment, the material can be melted and transformed again.

This product cannot be classified as PPE.

This product cannot be classified as a surgical medical device.

Neoprene band

Band with adjustment that allows the right fit.

Neoprene belongs to the tire family.

It resists disinfectants and over 500 machine washes (30 ° with neutral detergents, no bleach).

It does not irritate the skin and is resistant to tears.

ABS frame

Frame in **recyclable plastic material**, available in different colors.

Light, elastic and ergonomically shaped.

Schermo facciale in policarbonato

Polycarbonate, thanks to its properties, **does not allow fogging and allows high visibility**.

It also acts as a protection from dust and foreign bodies.

The thickness of only 0.5 mm gives it **lightness and flexibility**.

It is also **recyclable**.

The kit includes:

- 1x • Neoprene band
- 1x • ABS frame
- 1x • Polycarbonate face shield
(Customizable)

Interlocking assembly without any lives.

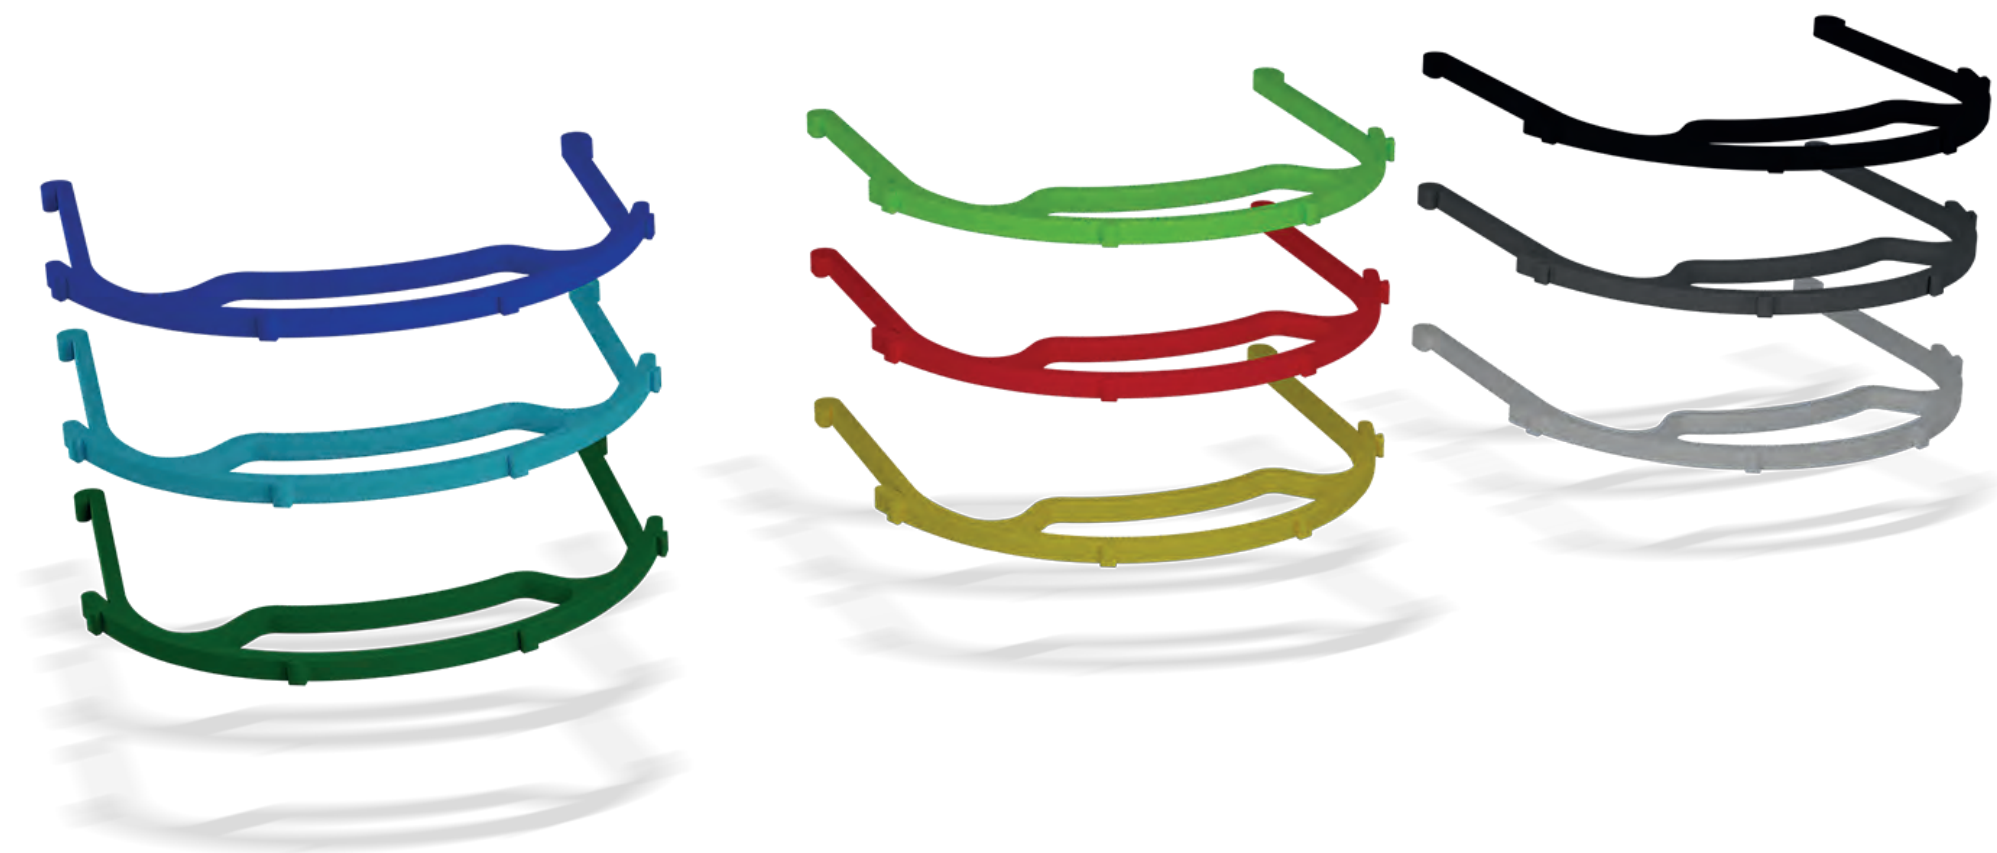

Detectable product, sanitizable and reusable
